**From:** AJ NETWORKS LTD (Abraham John)  
**Date:** 18th-10-25  
**Subject:** Proposal for Internet Connectivity Packages

---

Dear Patience,

Thank you for consulting us regarding your internet connectivity needs. Below please find a breakdown of recommended Safaricom packages (home & business) for your consideration. We are happy to assist further with installation, configuration, and ongoing support.

---

## 1. Home / Residential Fibre Packages

Package	Speed	Monthly Fee*	Best For
Bronze	15 Mbps	KSh~2,999	Light usage: browsing, social media, email. ( <a href="#">Safaricom</a> )
Silver	30 Mbps	KSh 4,100	Home devices, HD streaming, moderate multiple-users. ( <a href="#">Safaricom</a> )
Gold	80 Mbps	KSh~6,299	Larger households, 4K streaming, gaming, multiple devices. ( <a href="#">Victor Matara</a> )
Diamond	500 Mbps	KSh~12,499	Heavy users: multiple 4K streams, downloads, shared usage across many devices. ( <a href="#">Victor Matara</a> )
Platinum	1,000 Mbps	KSh ~20,000	Enterprise-level home usage: creators, many devices, highest demand. ( <a href="#">Victor Matara</a> )

\* Monthly fees approximate and subject to availability, location, and promotional offers.

---

## 2. 4G / Home Wireless Packages (For areas without fibre)

Package	Data / Speed	Monthly Fee*	Notes
105 GB (~3.5 GB/day) @ ~5 Mbps	105 GB	KSh ~2,999	Wireless home internet option. ( <a href="#">mobilekenya.com</a> )
150 GB (~5 GB/day) @ ~5 Mbps	150 GB	KSh ~4,100	More data for heavier usage. ( <a href="#">mobilekenya.com</a> )

240 GB (~8 GB/day) @ ~5 Mbps      240 GB      KSh ~6,299      Heavy home wireless data usage.

---

### 3. Mobile / 5G Home & Business Packages

Package	Details	Price*
Home WiFi 5G	400 GB for 30 days	KSh ~3,499 ( <a href="http://JITIMU">JITIMU</a> )
Home WiFi 5G	800 GB for 30 days	KSh ~5,999 ( <a href="http://JITIMU">JITIMU</a> )
Business 5G	Speed-based: 50 Mbps	KSh ~4,000 ( <a href="http://business.safaricom.co.ke">business.safaricom.co.ke</a> )
Business 5G	Speed-based: 100 Mbps	KSh ~5,000 ( <a href="http://business.safaricom.co.ke">business.safaricom.co.ke</a> )

---

### 4. Additional Considerations

- Ensure the location is **covered** for fibre or 5G/4G service — coverage varies by area.
- Installation and router/modem costs may apply.
- Review the **fair-usage policy** especially for heavy download users: e.g., Home Fibre Bronze has FUP 500 GB then speed reduction. ([Safaricom](http://Safaricom))
- Promotional discounts may apply for new customers (e.g., first-month reductions). ([Kenya Times](http://Kenya Times))
- We recommend selecting a plan based on expected number of users/devices + type of usage (streaming, gaming, downloads).

- We can assist with setup, optimisation (WiFi network, router placement, security) and ongoing monitoring as part of our consultancy.

The screenshot displays a website interface for business fibre services. At the top, there are three tabs: 'Explore Home', 'Explore Family Share', and 'Explore Business' (which is highlighted). Below the tabs, there are three vertical cards representing different fibre packages:

- 15 Mbps Package:**
  - Small offices of 1-5 users**
  - Internet speed upto 15 Mbps
  - Free router
  - Free installation
  - Fast web browsing,email,social media
  - Superfast HD video downloads
  - Multiple device streaming
  - e-Commerce capability
  - Guest Wi-Fi access (limited)

## 5. Our Services for You

As part of AJ NETWORKS LTD, we offer:

- Package selection assistance & contract review
- Installation coordination with Safaricom + hardware setup
- Network optimisation (router config, security hardening)
- Ongoing support: performance checks, troubleshooting, upgrades

Please let us know if you'd like to proceed with one of these packages or if you'd like us to check location-specific availability and generate a firm offer including hardware and contract terms.

Thank you for considering AJ NETWORKS LTD. We look forward to serving your connectivity needs.

Warm regards,  
Abraham John
